

Loading Screen:

While App loads it will show the loading screen

Landing Page:

Popup a Terms and Conditions Popup, can close by accept or reject

On reject close app and exit

On Accept:

Will Check if a person has registered in the sqlite database

If yes then

a) Show Login Page with fields:

Mobile Number

Pin/Password (5 digit pin code)

Login Button will slide out left and Main Page will slide in

Main Page

Will have Circle Image with profile pic and 4 default buttons on page

Top Left Button, Top Right Button, Bottom Left Button, Bottom Right Button

If no then

b) Show Page

Register Step 1 of 3

*Mobile Number

*Pin

*Re-enter Pin

Next Button will slide out left and slide Page 2 in from right

and Cancel Button will close app

Register Step 2 of 3

*Name

*Surname

*Date Of Birth

Gender

id/passport

Next Button will slide out left and slide Page 3 in from right

Back Button will slide out right and slide Page 1 in from left

Register Step 3 of 3

Take a selfie or load image for profile pic (Circle image)

Complete Button will fade shrink page and bring login page in,

here the data will be stored in sqlite db preferably, data must be secure, so someone does not get their hands on the info

Back Button will slide page out right and slide Page 2 in from left
